

PRESS RELEASE

Brazil: Fertilizer Handling with AUMUND Bucket Elevators

São Paulo / Brazil, August 2020

AUMUND Ltda, Brazil, has received an order from Metso to supply four Bucket Elevators for a plant being built by the JBS Group in Guiaçara in the State of São Paulo. This greenfield project will be the largest plant in Brazil using factory-generated organic waste to produce fertiliser. JBS is one of the world's leading food industry companies with approximately 235,000 employees in over 20 countries. This is the very first time it has selected AUMUND solutions for its conveying technology.

From organic raw material (left) JBS will produce organo-mineral fertiliser products (right) at the plant in Guiaçara (© AUMUND).

The organo-mineral fertiliser products which JBS produces in Guiaçara will be supplied for major crops such as soybean, corn, coffee and cotton as well as vegetables and fruit. Three of the AUMUND machines ordered by Metso are Chain Bucket Elevators type BWZ-L (light) with conveying capacities of 26, 29 and 163 tph respectively, and will operate in the granulation plant, more specifically for raw material feeding, reception from the rotary drum, and at the compacting recirculation process.

The fourth piece of AUMUND equipment is a Belt Bucket Elevator BWG-L (light), designed for a capacity of up to 125 tph, which will operate in the packing and forwarding plant.

AUMUND Brazil will supply the equipment in November 2020, and commissioning is due to take place in March 2021.

PRESS RELEASE

About the AUMUND Group

The AUMUND Group is active worldwide. The conveying and storage specialists have special expertise at their disposal when dealing with bulk materials. With their high degree of individuality, both its technically sophisticated as well as innovative products have contributed to the AUMUND Group today being a market leader in many areas of conveying and storage technology. The manufacturing companies AUMUND Fördertechnik GmbH (Rheinberg, Germany), SCHADE Lagertechnik GmbH (Gelsenkirchen, Germany), SAMSON Materials Handling Ltd. (Ely, England), as well as AUMUND Group Field Service GmbH and AUMUND Logistic GmbH (Rheinberg, Germany) are consolidated under the umbrella of the AUMUND Group. The global conveying and storage technology business is spearheaded through a total of 19 locations in Asia, Europe, North and South America and a total of five warehouses in Germany, USA, Brazil, Hong Kong and Saudi Arabia.
