## Careful Unloading of Iron Ore Pellets with SCHADE Wagon Tippler

Gelsenkirchen/Germany, March 2020

At the Baltic Port of Ust-Luga, around 100 km west of St. Petersburg in Russia, export capacity is being expanded further by the port logistics company Ultramar. This first-time customer of SCHADE Lagertechnik GmbH has ordered equipment for the outdoor stockyard of a new iron ore terminal.

Example: SCHADE Wagon Tippler in Peru (Photo SCHADE)

Back in the sales phase SCHADE supplied fundamental technical solutions for the outdoor stockyard design. The order comprises a Portal Reclaimer with a capacity of 2,500 tph and a rail span of 46 m, a rotating Stacker at a capacity of 1,800 tph and boom length of 37 m, and a Wagon Tippler with a capacity of up to 1,800 tph. The SCHADE supply package also includes two Hybrid Apron Feeders with a capacity of over 850 tph each which are being delivered by AUMUND Fördertechnik.

The machines are to stack and reclaim iron ore pellets for Lebedinsky GOK, which describes itself as operating the largest plant in Russia and the CIS for

## PRESS RELEASE

the mining and processing of iron ore, and has been a customer of AUMUND for many years. The specialised SCHADE technology guarantees that the iron ore pellets are not damaged during handling. This is for example achieved by defining a 32-degree tilt for unloading material from the wagons into the bunkers. The boom of the Stacker is structured to tip the fragile pellets with a drop of less than 1 m.

Commissioning of the equipment at Ultramar is planned for the end of 2020 / beginning of 2021.

### **About the AUMUND Group**

*The AUMUND Group is active worldwide. The conveying and storage specialists have special expertise at their disposal when dealing with bulk materials. With their high degree of individuality, both its technically sophisticated as well as innovative products have contributed to the AUMUND Group today being a market leader in many areas of conveying and storage technology. The manufacturing companies AUMUND Fördertechnik GmbH (Rheinberg, Germany), SCHADE Lagertechnik GmbH (Gelsenkirchen, Germany), SAMSON Materials Handling Ltd. (Ely, England), as well as AUMUND Group Field Service GmbH and AUMUND Logistic GmbH (Rheinberg, Germany) are consolidated under the umbrella of the AUMUND Group. The global conveying and storage technology business is spearheaded through a total of 19 locations in Asia, Europe, North and South America and a total of five warehouses in Germany, USA, Brazil, Hong Kong and Saudi Arabia.*
