Enclosed Stockyards: Highest Performing SCHADE Semi-Portal Reclaimer for Iron Ore

Gelsenkirchen/Germany, March 2020

Environmental concerns have become the top priority for the largest steel producer in Taiwan, CSC (China Steel Corporation), as it currently completes a project in its Kaohsiung plant, in the planning since 2012, to reduce environmental impact by enclosing stockyards. SCHADE Lagertechnik GmbH is going to supply via China Steel Machinery Corporation four Semi-Portal Reclaimers with rail spans of over 52 m for enclosed stockyards, and China Dragon Steel, which also belongs to CSC, will take delivery of two further Semi-Portal Reclaimers with rail spans of around 67 m.

Four SCHADE Semi-Portal Reclaimers for China Steel Corporation

Two of the four SCHADE Reclaimers have a reclaim capacity with a peak performance of over 3,000 tph of iron ore, which puts them among the highest performing SCHADE Semi-Portal Reclaimers for applications in iron ore.

These Reclaimers are also equipped with special two-way chutes to load two

PRESS RELEASE

conveyors. The two other Semi-Portal Reclaimers are designed for a reclaim capacity of over 1,200 tph of coal. Delivery of the machines will start in the middle of this year.

Two SCHADE Semi-Portal Reclaimers for China Dragon Steel

China Dragon Steel also operates a steel plant in Taiwan. This CSC Group company ordered two Semi-Portal Reclaimers each with a rail span of almost 67 m and a reclaim capacity of over 1,200 tph coal from SCHADE. Back in 2019 China Dragon Steel had commissioned two Tripper Cars and two Semi-Portal Reclaimers from SCHADE.

About the AUMUND Group

The AUMUND Group is active worldwide. The conveying and storage specialists have special expertise at their disposal when dealing with bulk materials. With their high degree of individuality, both its technically sophisticated as well as innovative products have contributed to the AUMUND Group today being a market leader in many areas of conveying and storage technology. The manufacturing companies AUMUND Fördertechnik GmbH (Rheinberg, Germany), SCHADE Lagertechnik GmbH (Gelsenkirchen, Germany), SAMSON Materials Handling Ltd. (Ely, England), as well as AUMUND Group Field Service GmbH and AUMUND Logistic GmbH (Rheinberg, Germany) are consolidated under the umbrella of the AUMUND Group. The global conveying and storage technology business is spearheaded through a total of 19 locations in Asia, Europe, North and South America and a total of five warehouses in Germany, USA, Brazil, Hong Kong and Saudi Arabia.
